FALL / WINTER 2020-2021

# WE EXIST TO CONNECT PEOPLE WITH NATURE.

We, at Halti, exist to connect people with nature. We want to facilitate quality outdoor moments; from enjoying nature to demanding sports performance. The basis for the products is durable and timeless design, functionality and versatility, in addition to quality, style and responsibility.

According to our Think Ahead -sustainable development program, we take responsibility for our social, environmental and financial footprint. We put great focus on materials and production methods and use 3D-design. We are a bluesign® System Partner and our materials and processes are certified by the industries' highest standards. We strive to increase the number of ECO products in our collections. There is still a lot of work to be done but we do our best to ensure that future generations will also be able to enjoy a clean environment. We think ahead.

We are proud to bring our expertise - inspired by Nordic nature and aesthetics - to be used by the world's top athletes. By our partnership with the Finnish Ski Association we provide the clothing for all athletes in the Finnish national teams for Nordic skiing World Cups and World Championships. We also provide clothing for the International Ski Federation - the professionals of snow sports. Feedback from these professional partners help us develop our products even further to meet the highest standards and the most demanding conditions.

The 2020/21 fall and winter collections are divided into four categories: Skiwear, Multisport, Outdoor, and Active Lifestyle. In these categories, you will find the right equipment for an active day in the city and outdoors, intense training or World Cup level competitive performance.

Over the past 40 years we've equipped and sponsored many of the world's top athletes across all of our product categories. From the elite in various Alpine and Nordic winter sports, to adventure racers and outdoor professionals.

# Halti kestävän kehityksen ohjelma

Ihmisen ja luonnon kunnioitus luovat pohjan kaikelle Haltin toiminnalle. Tuotteemme on suunniteltu luonnossa liikkumiseen ja urheiluun ja siksi meille on tärkeää, että kannamme vastuun ympäristöllisestä ja taloudellisesta jalanjäljestämme. Yrityksenä otamme vastuun myös ihmisten kunnioittamisesta. Tuotteemme valmistetaan sosiaalisesti ja eettisesti hyväksyttävissä olosuhteissa, toimialueidemme lakeja, asetuksia ja alan ohjesääntöjä noudattaen. Katsomme tulevaisuuteen ja teemme voitavamme, jotta jälkipolvetkin saisivat nauttia puhtaasta luonnosta. Haluamme tehdä tuotteita, jotka kestävät aikaa. We think ahead!

## Ympäristövastuu

- Halti suunnittelee ja valmistaa käyttöä ja aikaa kestäviä tuotteita huomioiden ympäristövaikutuksen tuotteen koko elinkaareessa.
- Olemme bluesign® system partner ja vaadimme uusia ja nykyisiä alihankkijoitamme noudattamaan bluesignin erittäin tarkkaa rajoitettujen ainesosien listaa. Lue lisää [www.bluesign.com](http://www.bluesign.com)
- Tuotteemme tehdään ihmisiä ja ympäristöä teollisuuskemikaaleilta suojaavien REACH-asetusten mukaisesti.
- Emme käytä tuotteissamme aitoja eläinten turkiksia.
- Untuvamme on tarkoin kontrolloitua RDS-untuvaa. Tiukkojen RDS-standardien ansiosta voit luottaa, että tuotteemme on valmistettu korkealaatuisesta ja eettisesti tuotetusta untuvasta.
- Emme hyväksy muuta eläinten epäeettistä kohtelua kuten pakkosyöttämistä, elävien lintujen höyhennystä tai mule-sing-menetelmällä tuotettua villaa.
- Suunnittelussa käytämme 3D-mallinnusta, joka optimoi suunnittelu prosessin.

## Yhteiskunnallinen ja sosiaalinen vastuu

- Tuotteemme valmistetaan sosiaalisesti ja eettisesti hyväksyttävissä olosuhteissa.
- Vuodesta 2010 alkaen hankintatoimintojamme on ohjannut amfori jäsenyys, (The Business Social Compliance Initiative), joka takaa reilut työolosuhteet ja huolehtii alihankkijoidemme työntekijöiden oikeuksista.
- FIBS - yritysvastuuverkoston jäsenenä osallistumme aktiivisesti yhteiskunnalliseen vaikuttamiseen taloudellisesti, sosiaalisesti ja ekologisesti vastuullisen toiminnan edistämiseksi ja oman tietoisuutemme ylläpitämiseksi.
- EOG-organisaation jäsenenä osallistumme toimialamme kestävän kehityksen hankkeisiin ja saamme ensikäden tietoa toimialaamme koskevista asioista.
- Tuemme ilmastonmuutosta vastaan ja talvien pelastamiseksi kampanjoivan Protect Our Winters Finlandin toimintaa.

## Tavoitteemme tulevaisuudessa

Vuodesta 2010 kestävä kehitys on ollut tärkeä osa Haltin yritysstrategiaa. Paljon on jo tehty, mutta jatkamme toiminnan kehittämistä. Myös tulevaisuudessa tavoitteemme ovat korkealla. Pyrimme seuraaviin konkreettisiin tavoitteisiin kaikilla markkina-alueillamme:

- Sitoudumme nostamaan amfori auditoitujen toimittajien määrän 80 %:iin vuoteen 2020 mennessä kaikissa tuotekategoriassamme.
- Lisäämme merkittävästi kierrätettyjen materiaalien käyttöä tuotteissamme.
- Kehitämme yritys vastuuta monipuolisesti FIBS:n ja EOG:n jäsenenä.
- Halti on bluesign® system partner ja vaadimme uusia ja nykyisiä alihankkijoitamme noudattamaan bluesignin erittäin tarkkoja vaatimuksia.

ECO TUOTTEEN TÄYTETTÄVÄ VÄHINTÄÄN YKSI SEURAAVISTA VAATIMUKSISTA:

- Käytetty materiaali on bluesign® rajoitusten mukainen ●● Se on valmistettu kierrätetystä materiaalista
- ●● Vettähylykivyyksittely on täysin fluorihilivapaa ●● Se on valmistettu orgaanisesta puuvillasta ●●
- Tuotteessa käytetty korkealuokkaista untuvaa joka on elintarviketeollisuuden sivutuote ja jäljitettävissä

# Halti's sustainable development programme

Respect for man and nature is the basis of all Halti's activities. No one can ignore climate change and environmental issues anymore. Our products are designed for an outdoor life and sport, and it's important for us to bear our responsibility for our environmental and economic footprint. As a company, we also take responsibility for respecting people by manufacturing our products in socially and ethically acceptable conditions, in compliance with the laws and regulations of the countries where we operate, as well as the guidelines of the industry. We look into the future — we think in the long term and do our best to ensure that future generations will also be able to enjoy a clean environment. We think ahead!

## Environmental responsibility

- Halti designs and makes durable products and considers the environmental effects of each product's whole life cycle.
- We are a bluesign® system partner and demand that both our new and existing subcontractors comply with the detailed bluesign® restricted substance list.
- Our products are made in compliance with the REACH regulations, which protect people and the environment from industrial chemicals.
- We do not use real fur in our products.
- We follow the RDS standard, which means that our products are not made with feathers that are plucked from birds while they are still alive.
- We do not accept the unethical treatment of animals, including forced feeding, the plucking of birds that are still alive, or wool production where mulesing is used.
- We use 3D design program, which reduce the amount of textile materials.

## Corporate social responsibility

- Our products are made in socially and ethically acceptable conditions.
- Since 2010, our procurement operations have been guided by our membership of the Business Social Compliance Initiative, which guarantees fair working conditions and safeguards the rights of our subcontractors' workers.
- As membership of amfori (The Business Social Compliance Initiative), we actively exert our influence to promote economically, socially and ecologically responsible operations and to maintain our awareness of these issues.
- As member of the EOG organisation we take part in sustainable development projects in our industry and obtain first-hand information about matters relevant to our sector.
- We support Protect Our Winters Finland, an organisation that campaigns against climate change and to save Finnish winters.

## Our future aim

Since 2010, sustainable development has been an important element of Halti's business strategy. A lot has been done already, but we are continuing to improve our activities. We will continue to aim high. The following are our concrete targets in all our market areas:

- We commit to increasing the proportion of our amfori audited suppliers to 80% by 2020 in all our product categories.
- We are significantly increasing the use of recycled materials in our products.
- We are improving our corporate responsibility in diverse ways as a member of FIBS and EOG.
- Halti is a bluesign® system partner and we demand our new and existing subcontractors comply with the detailed bluesign® restricted substance list.
- Supply Chain Mapping: the basis of the product design is that we support recycling.

ECO PRODUCT FEATURES MINIMUM  
ONE OF THESE QUALITIES:

Product received the ECO label when; Fabric used is certified bluesign® approved ●● It is produced of recycled material ●● The WR treatment is fluorocarbons free ●● made of organic cotton ●● It is made of high-quality down from strictly controlled suppliers, where the down is a by-product of food production

Olethan ystävällinen ja huomioit etteivät ns. neon värit printtaudu oikeansävyisinä. Neon värit ovat merkattuna kirjaimella N. Huomioitavaa on myös, että neon väriset vaatteet voivat haalistua sekä värjätä muita vaaleampia materiaaleja. Kirjain M tuotteen värikoodin lopussa tarkoittaa materiaalin olevan meleerattu. Haltin untuvatuotteissa käytämme sertifioitua untuvaa. Vaatteiden päälli- ja vuorikankaiden osalta untuvat voivat kuulua läpi.

Please notice, that the "neon" colours as a print do not appear as bright as they should. Neon colours are marked with the letter N. Please notice also, the neon colours in clothing may fade and transfer on to other light-coloured materials. Material is melange when letter M exists at the end of colour code. We use only certificated down in our down items. With light coloured outer and lining materials down/feather can be visible.

# SUSTAINABLE WARMTH IN THE COLDEST HUMID CONDITIONS

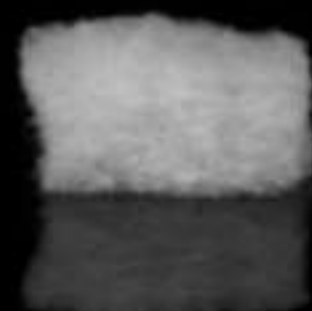

Technical and ecological paddings which are produced by high standards using recycled materials. Paddings are extremely light weight and they can maintain high heat ratio even when wet. As padding is water repellent and extremely breathable, it is suitable for really high activity, in cold and wet circumstances.

## microtherm<sup>®</sup> THERMOFILL

This super soft down like filling contains small fiber clusters that are blown into filling. This way fibers creates uneven structure that can capsule a lot of air inside and makes it very warm and lightweight.

## microtherm<sup>®</sup> ARCTY

With extra fine and soft fibers this filling creates lofty feeling and super warm result. Many layers of fine fibers can capsule air very effectively and thus can be used in the coldest conditions.

## microtherm<sup>®</sup> DYNAMIC

Enough warmth and technical functionality is key to this dynamic filling. Overlapping fibers creates stretchable structure that capsules air even with slim structure. Works perfectly with stretchable outshells.

# OUTDOOR

Our heritage and our soul, Halti Outdoor collection is 100% with ECO products. We are using our expertise from past forty years by creating collection which includes not only technical outdoor styles but also environmentally best choices for outdoor enthusiastic. The Think Ahead design philosophy is: the products should have all the right functions, but no unnecessary details that are causing unnecessary impact to nature – the whole is always greater than the sum of its parts. Fresh design with recycled outdoor materials and vibrant details creates stylish simplicity.

# ACTIVE LIFESTYLE

Lifestyle collection includes casual looking sporty styles that have technical features. Design get its inspiration from nature and Nordic aesthetic. Combining smooth and rough material gives extra interest to styles. Key features to lifestyle collection are lightness, urban lifestyle habits, varying weather conditions and smart styling. Technical materials with natural cotton-like touch are creating soft and warm look to the concept. Different material structures, rough twill lively melange and peached micro gives characteristics and soul.

# SKIWEAR

The new Halti Alpine collection is true to our original idea: to produce clean modern Nordic style skiwear with beautiful fit and sharp look. Technical solutions on the garments are refined and underline our heritage on functional minimalistic aesthetics. Alternative to pure race look we bring outdoor inspired styles variation from pure shell garments to lightly padded items for those who appreciate rough materials and cutting-edge fit. Seasonal overall patterns are inspired by Nordic shifting surface of snow dynes.

**059-2510 Theela W DX ski jacket**

Excellent minimalistic design, technical features and protection combined with reflective details makes this jacket a must for all the passionate skiers who demand a bit more. Stylish details and carefully thought cut lines give this jacket its figure flattering signature look. Water repellent zippers, laser cut ventilation at windlist, technical Primaloft® insulation and DrymaxX® fabric made of 100% recycled polyester, perfects this to a legitimate and sustainable piece of skiwear.
