LIGHTWEIGHT &
CLOSER TO THE
SKI FEELING

BRIDGE ARCH SHAPE
LOW STANDING POSITION,
MORE GROUND CLEARANCE &
BETTER SKATING FLEX

SPEEDMAX SKATE

The lightweight among the skate rollerskis shows itself in a new design: The Speedmax Skate impresses with its Bridge Arch Shape and Full Carbon Construction, giving it an authentic on-snow skiing feel. The low-to-the-ground positioning and generous ground clearance provide a true skate style flex and optimal power transfer. Extended wheelbase and high torsional rigidity provide a stable, secure ride even at high speeds.

ACCESSORIES

ROLLERSKI BRAKE

The Fischer Rollerski Brake is a universal brake that can be used in connection with Fischer rollerskis and rollerski boots. The brake works completely detached from the rollerski, because it is directly attached to the boot. Due to the very low weight the brake remains virtually unnoticed during the running performance. The perfect accessory for increased safety and optimal control on rollerskis.
