Product text	RD 16 GS PRO	RD 16 SL PRO	RD 13 CARBON	RD 16 GS	RD 16 SL
Standing in the start house, the only thing on your mind is getting to the finish line fast and first. The RD GS Pro ski pole is there to help. Its Real Race shaft is made of Calu, which combines the strength of aluminum with the lightness of carbon, making this aero shaped pole especially stable. The excellent ergonomics of the non-slip Ergo Grip Pro give you a secure hold, even at high speeds. When the basket has had a rough season of racing you can easily swap it for a new one, just like the pros.	The RD 16 SL PRO will lead you through the thick forest of slalom gates. This extremely stable slalom pole is set up especially for the demands of racing with just the right material mix. The shaft's upper is aluminum and the lower section is a carbon/Aramid blend, making contact with gates at race speeds no problem. The non-slip, optimally ergonomic Ergo Grip SL Pro ensures a secure hold in every turn. When the basket has had a rough season of racing you can easily swap it for a new one, just like the pros.	The impressive RD 13 Carbon is an ultralight racing pole that is also ultra stable. Sophisticated carbon construction lets it easily handle occasional gate contact at race tempo. Light, strong Aramid ski edge protection helps prevent the pole from being damaged. The non-slip, optimally ergonomic 2K Grip ensures a secure hold at every turn. When the basket has had a rough season of racing you can easily swap it for a new one, just like the pros.	Skiers that enjoy high speed runs, or even the occasional race, need a lightweight, durable pole with a secure hold, like the RD 16 GS. The sophisticated construction of its aero shaped aluminum shaft makes it very stable at high speeds with occasional gate contact. The non-slip, optimally ergonomic Ergo Grip Pro ensures a secure hold at every turn. When the basket has had a rough season of racing you can easily swap it for a new one, just like the pros.	Skiers that enjoy high speed runs, or even the occasional race, need a lightweight, durable pole with a secure hold, like the RD 16 SL. The sophisticated construction of its aluminum shaft makes it very stable at high speeds with occasional gate contact. The non-slip, optimally ergonomic Ergo Grip SL Pro ensures a secure hold at every turn. When the basket has had a rough season of racing you can easily swap it for a new one, just like the pros.

Product text

The FR Carbon Vario Pro is your trusted partner in unpredictable freeride terrain. It's made of an ultralight, stable carbon fiber/aluminium shaft which gives it an optimized swing weight. The telescopic construction allows simple length adjustments, making it ideal for backcountry use. Ergonomic recesses in the grip mean the Ergo Grip Pro sits comfortably in your hand and provides reliable grip in any situation. Aramid edge guards handle the job of protecting the pole from damage during contact with skis, rocks, or trees. On top of all this, the Freeride baskets are simple to swap out.

Experience the future of Freeride skiing today with the FR 18 PRO and its thick 18.9mm shaft diameter. This durable, high-quality aluminum pole features the Ergo Grip Pro with ergonomic recesses that enhance your grip. The strap is easy to adjust to meet your specific need. Baskets are absolutely simple to swap out, so use one of the supplied baskets to hit the groomed slopes, too.

The FR 13 Comp is the ideal travel partner for deep powder days. Its carbon composite shaft offers an optimal blend of lightness and stability in any conditions. The brandnew ergonomic Ergo Grip Performance Pro fits extremely well and feels secure in any situation, including on-piste skiing, made possible with the included On Piste Basket. Easy-swap baskets complete the package.

The FR 16 pole is the right choice if you'll be skiing on-piste as well as in the backcountry. Its durable, light, aluminum shaft allows versatility and its brandnew ergonomic Ergo Grip Performance gives a secure hold anywhere on the mountain. On-Piste and Off-Piste baskets can be quickly and easily swapped.

SAFELY UP AND DOWN THE MOUNTAIN.

Product text

Ambitious ski touring racers are guaranteed to make the right choice with the TR Carbon Race. This ultralight pole is made entirely of sophisticated carbon fiber and comes with the Biathlon World Cup-proven combination of carbon fiber grip and biathlon strap. The standard-issue Exchange Basket XL can be changed by hand for varying conditions race-to-race for total flexibility and customization.

For extended, challenging ski tours you absolutely must have a reliable, stable, and versatile touring pole like the TR Carbon Vario X. This ultralight, foldable, telescopic pole is engineered with five different shaft components for durable function in a wide variety of conditions. It folds away quickly and compactly when not needed, and the length can be quickly adjusted to match the steepness of any climb. The carbon shaft is lightweight yet durable, and has an optimal swing weight. Ergonomic grip gives all-tour comfort, a secure hold, and releases quickly to help prevent injury in a fall. Aramid edge protection guards the pole from contact with a ski, rocks, or tree. Easy-swap baskets complete the package.

The RD GS Junior will guide tomorrow's stars through the gates just like today's pro skiers. Ergonomic recesses in the grip mean the brandnew Ergo Grip Pro JR sits securely in a gloved hand for sure grip, even in unexpected race situations. A starting line stance is now even more aerodynamic thanks to curved geometric shaping. All this makes this pole the right choice for those Juniors fighting for every hundredth of a second.

The durable, aluminum RD SL Junior will keep up with tomorrow's fastest ski stars. The non-slip, optimally ergonomic Ergo Grip SL Pro JR ensures a secure hold in every turn. When the basket has had a rough season of racing you can easily swap it for a new one, just like the pros.

The Junior High is the ideal pole for young skiers looking to improve their on-piste skills. The ergonomic Junior Grip, light and durable aluminum shaft, and easily exchanged baskets are designed for season after season of fun.

The Junior ski pole makes it easier for young skiers to concentrate on their technique, not their gear. This pole features a stable and durable aluminum shaft, ergonomically shaped grips, and easily swapped baskets.

Product text

A ski pole for rental must above all be durable and quickly recognized. The XTR Comp meets both requirements. Its high-quality carbon composite shaft ensures maximum stiffness with minimum weight. In addition, the rental pole has a practical color and length concept to find the right size quickly and easily. An ergonomic grip and easily replaceable baskets round out the overall package. Give your customers an unparalleled skiing experience with the XTR Comp!

Ski poles for rental use must be extraordinarily durable and easy to identify. The XTR meets both these needs. Pole length is easily recognized by its corresponding color, and a rugged aluminum shaft maintains its function season after tough rental season. The ergonomic grip adds comfort, while easily swapped baskets add convenience.

A kids' ski pole for rental use must be extraordinarily durable and easy to identify. The XTR Junior meets both these needs. Pole length is easily recognized by its corresponding color, and a rugged aluminum shaft maintains its function season after tough rental season. The ergonomic grip adds comfort, while easily swapped baskets add convenience.
